

## Instructions for printing the Rochester Chapter "TIP" cards

Facilitate communication between normally hearing people and those with hearing loss.

1. Download, Save and Print the three column "Tip Sheet. It will print out to a full 8 1/2" X 11".

Note: If your printer has the capability for two-sided printing and you print directly on card stock; the job will be easier. Try the "Portrait" orientation, although "landscape" will work.

2. Cut out each of the three strips on the page.
3. On a piece of card stock or thick paper, use adhesive to affix the Tips for Hearing People on one side of the card and the Tips for People with Hearing Loss on the other.
4. Distribute to people with normal hearing and those with hearing loss, to use as a bookmark.
